Hobbylim
2935

Water based adhesive for all in purpose glue for household use.

Intended for gluing wood paper, textile, leather, fabrics for lamp-shades, porcelain and plastic beads.

- Crystal clear joint
- Odourless
- Flexible and strong adhesive
- Has good water resistance

TECHNICAL DATA

Basis: E/VA dispersion based
Solvent: Water
Consistency: Viscous
Density: Approx. 1040 kg/m³
Dry solids: Approx. 59 %
Appearance: White but get crystal clear after drying
Service temperature: +10°C to +50°C
Flash point: None

APPLICATION DATA

Application temperature: +15°C - +20°C
Tools: Brush or roller
Application time: Approx. up to 10 minutes.
Storage life: At least two years in unopened package. May not be exposed to temperature below 0°C or above +30°C.

SURFACE PREPARATION

Joint interface must be clean, dry and free from oils, loose aggregates, laitance, release agents, waterproofing and other contaminants.

DIRECTIONS FOR USE

Apply the adhesive on the surface and press together for 1 – 5 minutes depending of the porosity of the surface.
When gluing textiles, e.g. lamp shades, glue can be applied to both surfaces.

HANDLING AND CLEANING INSTRUCTIONS

Observe good cleanliness when working with the product.

In case of skin contact, wash with soap and water.

Application tools are cleaned with water before the adhesive has dried.

Dried adhesive is dissolved with Casco Limtvätt or ethanol.

Keep out of reach of children.

Do not empty into drains.

ENVIRONMENTAL ASPECTS

For additional health and safety information consult the Safety Data Sheet.
