RX Original 2903, 3846

Solvent based adhesive intended for gluing paper.

Has also good adhesion to cardboard, wood, leather.

The package has a build-in applicator to simplify application and ensure correct amount.

- **Does not wrinkle the paper**
- **Is transparent and colourless**
- **Good heat and water resistance**
- **Very good long term performance**

TECHNICAL DATA

Basis: Polyvinylacetate in solvent mixture
Solvent: Acetone, ethanol
Consistency: Low viscous
Density: Approx. 910 kg/m³
Dry solids: Approx. 35 %
Appearance: Transparent
Service temperature: -40°C to +70°C
Flash point: +10°C

APPLICATION DATA

Application temperature: +15°C - +30°C
Drying time: Normally 10-30 minutes.
Storage life: At least two years in closed package at 0 - +30 °C

SURFACE PREPARATION

Joint interface must be clean, dry and free from oils, loose aggregates, laitance, release agents, waterproofing and other contaminants.

DIRECTIONS FOR USE

Apply a thin layer of glue on the surface which should be glued and then press together.

Note: When gluing photos, apply a thin layer of glue. Wait about 30 seconds before the photo is assembled.

Do not apply both sides of the album sheet at the same time.

HANDLING AND CLEANING INSTRUCTIONS

When working with adhesive, cleanliness must be observed. Therefore always work carefully and systematically in order to avoid unnecessary spillage.

Clean tools and dried adhesive spots with acetone

On skin, uncured adhesive is wiped off with a rag, then wash with soap and water.

Keep out of reach of children.

Do not empty into drains.

ENVIRONMENTAL ASPECTS

For additional health and safety information consult the Safety Data Sheet.
