WALL ADHESIVE SUITABLE FOR GLUING MOST TYPES OF PLASTIC WALL COVERINGS

DESCRIPTION
Wall adhesive, suitable for gluing most types of plastic wall coverings with PVC layer thicker than 0.6 mm. Weld able. Suitable for horizontal application of wall coverings.

USES
- Plastic wall coverings with PVC layer thicker than 0.6 mm.
- For horizontal application of wall coverings.

CHARACTERISTICS / ADVANTAGES
- For wet rooms
- Adapted for roller and brush
- Easy to apply
- Minimal splashing
- Easy to apply an even layer with roller
- Contains no APEO

APPLICATION INFORMATION

| Consumption       | 1 liter / 3-5 m².              |
| Relative Air Humidity | 20–70 % RH.                |
| Substrate Temperature | Application temp: +18 °C to +23 °C |
| Application Time  | 0-15 min.                      |
APPLICATION INSTRUCTIONS

RECOMMENDED METHOD OF WORKING
ON POROUS SUBSTRATE (like concrete, wet strong putty, particle board and gypsum plaster boards);

1. Spread the adhesive evenly on the wall with a roller. Don’t apply the adhesive on larger areas then you can assemble in 15-20 minutes. Apply the covering immediately or after a waiting time of 5 to 10 minutes.
2. Rub thoroughly to press out all the air to achieve a good contact between the adhesive and the covering.
3. Check that the whole covering area has full contact with the adhesive.
4. Join the material according to the material producer’s instruction.
5. In case of heat re-activation, do not use more heat than absolutely necessary, especially when working with corners.

On porous substrate, always make sure you let the walls dry for 2 days, until you use the room, after gluing of the covering.

NOTE! Strong absorbent surface must be primed with primer or a mixture of AquaProff and water 1:1.

SUBSTRATE PREPARATION

REQUIREMENT OF SUBWALL

Before installing the covering make sure that the subfloor is clean, even and dust free and has an adequate strength, bearing strength, dimensional stability and is permanent dry.
The moisture content in the concrete must not exceed 85 % RH.

CLEANING OF EQUIPMENT

Always make sure to use suitable gloves and goggles when handling the product. Work carefully and systematically in order to avoid unnecessary spillage.
In case of skin contact, wash with soap and water. In case of eye contact, rinse thoroughly with water. Clean application tools with water before the adhesive has dried. Dried adhesive is dissolved in ethanol.

APPLICATION

Roller or brush

BASIS OF PRODUCT DATA

All technical data stated in this Product Data Sheet are based on laboratory tests. Actual measured data may vary due to circumstances beyond our control.

LOCAL RESTRICTIONS

Please note that as a result of specific local regulations the declared data for this product may vary from country to country. Please consult the local Product Data Sheet for the exact product data.

ECOLOGY, HEALTH AND SAFETY

For information and advice on the safe handling, storage and disposal of chemical products, users shall refer to the most recent Safety Data Sheet (SDS) containing physical, ecological, toxicological and other safety-related data.

LEGAL NOTES

The information, and, in particular, the recommendations relating to the application and end-use of Casco products, are given in good faith based on Sika’s current knowledge and experience of the products when properly stored, handled and applied under normal conditions in accordance with Sika’s recommendations. In practice, the differences in materials, substrates and actual site conditions are such that no warranty in respect of merchantability or of fitness for a particular purpose, nor any liability arising out of any legal relationship whatsoever, can be inferred either from this information, or from any written recommendations, or from any other advice offered. The user of the product must test the product’s suitability for the intended application and purpose. Sika reserves the right to change the properties of its products. The proprietary rights of third parties must be observed. All orders are accepted subject to our current terms of sale and delivery. Users must always refer to the most recent issue of the local Product Data Sheet for the product concerned, copies of which will be supplied on request or on the website www.casco.eu.
