DESCRIPTION

Floor adhesive suitable for gluing most types of PVC coverings with or without backing, some linoleum- and textile floor coverings.

USES

• PVC coverings with or without backing
• Some linoleum
• Textile floor coverings

CHARACTERISTICS / ADVANTAGES

• Fast bonding floor adhesive
• Good tack
• Suitable for floor heating
• Contains no APEO or volatile solvents
• Suitable for castor wheels

PRODUCT INFORMATION

<tr>
<th>Composition</th>
<th>Copolymer of acrylic dispersion</th>
</tr>
</thead>
<tbody>
<tr>
<td>Packaging</td>
<td>10 liter</td>
</tr>
<tr>
<td>Colour</td>
<td>Beige</td>
</tr>
<tr>
<td>Shelf life</td>
<td>12 months if stored in minimum +10 °C in well closed packages.</td>
</tr>
<tr>
<td>Storage conditions</td>
<td>May not be exposed to temperatures below 0 °C and above +30 °C.</td>
</tr>
<tr>
<td>Density</td>
<td>Appr. 1340 kg/m³</td>
</tr>
<tr>
<td>Consistency</td>
<td>Thixotropic</td>
</tr>
<tr>
<td>Solid content by weight</td>
<td>Appr. 73 %</td>
</tr>
<tr>
<td>Viscosity</td>
<td>Appr. 60 000 mPa.s, Brookfield RVT, sp 6, 10 rpm, 25 °C</td>
</tr>

Yield

- **Absorbent subfloor**
  - Homogenius PVC: 4-5 m²/l
  - Cusion vinyl: 4-5 m²/l
  - Polyolefine: 4-5 m²/l
  - Textile: 3-3,5 m²/l
  - Linoleum: 3-3,5 m²/l
- **Non-absorbent subfloor**
  - Homogenius PVC: 5-6 m²/l
  - Cusion vinyl: 5-6 m²/l
  - Polyolefine: 5-6 m²/l
  - Textile: 3-3,5 m²/l
  - Linoleum: 3-3,5 m²/l

APPLICATION INSTRUCTIONS

**REQUIREMENT OF SUBFLOOR**

Before installing the covering make sure that the subfloor is clean, even and dust free and has an adequate strength, bearing strength, dimensional stability and is permanent dry.
The moisture content in the concrete must not exceed 85 % RH and the chipboard moisture quota should be 8-12 %.

**RECOMMENDED METHOD OF WORKING**

When using CascoProff on new produced concrete we recommend minimum 10 mm self leveling compound. When using materials with a backside that has been grinded it is important to know that the material must always be installed in the wet stage of the adhesive and that the application time for this type of material must not exceed 30 minutes. When installing linoleum with a thiness of 2,5 mm or above, we recommend CascoLin or CascoLin Extra. Linoleum should always be installed on an absorbent surface in wet adhesive.

**ON POROUS SUBFLOORS**

1. Spread the adhesive with a toothed trowel. Don’t use more adhesive than necessary to give a good over-wetting during the stated open time.
2. Install material at once or after a very short open time and rub thoroughly to press out all the air to achieve a good contact between the adhesive and the covering. For best result use a carpet roller.
3. Check that the whole covering area has full contact with the adhesive.

**ON NON-POROUS SUBFLOORS**

If possible, create an absorbent subfloor by using a floor levelling compound with low shrinkage and good adhesion to the subfloor. Build up a layer of 2-3 mm. Follow the gluing instructions above “on porous subfloors”.
If it is not possible to use a leveling compound, use the following methods. On a non-porous sub floor it is important that as much water as possible have evaporated before installing the covering to avoid blister.
Let the adhesive dry until finger samples show no adhesive residuals. (note that this is not suitable for linoleum).
1. Apply the adhesive with a toothed trowel (6108, 6118 or 6121) and chose 2A or 2B below.
2A. Install the material in wet adhesive and make sure there is a good over wetting to the carpet. Pull up the carpet and let the adhesive dry for about 5-15 minutes and then lay down the carpet.
2B. Apply the adhesive and wait for 15-25 minutes. Then install the carpet in the semi-dried adhesive.
3. Rub thoroughly to press out all the air to achieve a good contact between the adhesive and the covering. For best result use a carpet roller. Make sure that the whole covering has good contact with the adhesive.

**CLEANING OF EQUIPMENT**

Clean application tools with water before the adhesive has dried. Dried adhesive is dissolved in ethanol.

**APPLICATION**

Tools: Toothed trowel e.g. Casco hard metal trowel 6108,6118 or 6121
BASIS OF PRODUCT DATA

All technical data stated in this Product Data Sheet are based on laboratory tests. Actual measured data may vary due to circumstances beyond our control.

LOCAL RESTRICTIONS

Please note that as a result of specific local regulations the declared data for this product may vary from country to country. Please consult the local Product Data Sheet for the exact product data.

ECOLOGY, HEALTH AND SAFETY

For information and advice on the safe handling, storage and disposal of chemical products, users shall refer to the most recent Safety Data Sheet (SDS) containing physical, ecological, toxicological and other safety-related data. In case of skin contact, wash with soap and water. In case of eye contact, rinse thoroughly with water. For further information, see Safety Data Sheet.

LEGAL NOTES

The information, and, in particular, the recommendations relating to the application and end-use of Casco products, are given in good faith based on Sika’s current knowledge and experience of the products when properly stored, handled and applied under normal conditions in accordance with Sika’s recommendations. In practice, the differences in materials, substrates and actual site conditions are such that no warranty in respect of merchantability or of fitness for a particular purpose, nor any liability arising out of any legal relationship whatsoever, can be inferred either from this information, or from any written recommendations, or from any other advice offered. The user of the product must test the product’s suitability for the intended application and purpose. Sika reserves the right to change the properties of its products. The proprietary rights of third parties must be observed. All orders are accepted subject to our current terms of sale and delivery. Users must always refer to the most recent issue of the local Product Data Sheet for the product concerned, copies of which will be supplied on request or on the website www.casco.eu.
